6. **Arbitration and Protest:** Competitors who feel they received an unfair score may file an Official Protest by presenting their argument to the USBA/WBA Representative on site (\$20.00 Protest Fee may be imposed at any time). The protestor will present the case to the USBA/WBA Representative through the ring coordinator. Any decision rendered by the USBA/WBA Representative will be final. Materials:

1. **Purchase of Materials:** All breaking materials must be purchased from the Supply Committee on-site, with the exception of the Creative Multi-Direction Wood Breaking, Creative Open Breaking and Extreme Breaking divisions (which must be inspected by Judges). Time Limits:

1. **IMPORTANT:** In order to keep the breaking divisions running smoothly, competitors will be required to adhere to the time limits outlined. This is very important, and deductions will be enforced. It would be to the competitor's benefit to practice set-ups, breaks, and clean-ups before the day of the event.
2. **Competitor Readiness:** A competitor must be ready to compete, as determined by the judges, as soon as that competitor's name is called in the ring.

Safety: The safety of the competitor and the audience comes first, NO EXCEPTIONS! The safety of the competitor is very important and we request that the instructor of the competitor approve all breaks. If the break is deemed to be unsafe by the Judges or the USBA/WBA Representative on site, we reserve the right to restrict the break. No material may leave the ring as a result of breaking unless planned for beforehand, to ensure that no other competitor, spectator, or Judge will be struck or put in danger by material as a result of a break. If this occurs, the Judges have the right to disqualify the competitor if they feel that the safety of others was compromised. Also, the break cannot cause damage to the facility or surrounding fixtures.

Creative Open Breaking - Any Materials, No Fire or Glass Breaks

1. **Materials:** Any materials can be used except fire and glass breaks. Examples of materials are cement blocks, wood boards, concrete, wood poles, bricks, metal, etc. Creativity of materials used, props, and techniques will increase a competitor’s score. Music is allowed, but competitor will be responsible for music.
2. **Props:** “Props” and “Prop” stations may be used. A Prop Station is any station that is not a true breaking station in which materials are broken by the body of the competitor. All Prop stations will count toward the total number of stations allowed. A Prop station should add to the overall “performance” of the creative routine in order to reflect positively on the competitor’s overall score. Glass may be used as a prop, such as a bed of glass, as long as it is contained and not broken on site.
3. **Techniques:** All techniques are allowed. Competitor may use any strike to break.
4. **Breaking Stations:** The competitor may set up a maximum of 10 stations. Each break will be considered one station. Simultaneous breaks will be considered one station. If competitor leaves the ground all breaks executed before he/she returns to the ground will be considered one station. A station may be free standing, set on stands, or held by assistants. Time is cumulative, determined as follows: time starts when competitor starts set-up, time stops when competitor completes set-up, time starts again upon the attempt of the first break, time stops upon the completion of the last break, time starts when clean-up begins, time stops when the ring is cleared as determined by the ring coordinator.
6. **Judging:** Competitor will be judged on difficulty, creativity, focus, and completion of breaks.

Extreme Kicks & Tricks Wood Breaking

1. **Materials:**
 - Wood boards only.
 - Competitor will be provided with up to 6 Boards (1/2"x10"x12").
2. **Props:** Props may be used. (ie. Apparatus to hold boards, or obstacles to create difficulty)

3. **General Concept:** This division was created to showcase techniques and acrobatic talent as displayed in “Extreme Forms” and “Tricking”, with the added requirement of breaking a board. Competitors should keep this in mind when preparing for this event.
4. **Techniques:**
 - All techniques should be variations of Spinning, Jumping, Flying or Flipping Kicks. Techniques that combine multiple aspects of these variations will be awarded a higher point value
 - All boards must be broken with the foot.
 - Traditional depictions of Kicks as well as acrobatic moves which allow the foot momentum to break a board.
5. **Stations:**
 - Each competitor may attempt up to 3 breaks or series of breaks (stations), not to exceed the overall 6 board maximum. An order of competition will be established and followed throughout the competition. For example, if there are 3 competitors competitor A will set up and execute their first break, followed by competitor B, followed by competitor C. This process will continue until a competitor has exhausted all of his/her 6 boards or until the completion of 3 stations per competitor, whichever comes first.
 - All Strikes must be single boards (no “stacks”).
 - Simultaneous strikes (striking board at one moment in time) will be considered one break/station.
 - Airborne is defined as the period of time when the competitor’s first foot leaves the floor or prop, until the moment the last foot returns to the floor or prop.
 - A station may be free standing, set on stands, or held by assistants.
 - Competitor will be responsible for all materials required to set up their stations.
 - Competitors will also be required to ensure the safety of fellow competitors and spectators as outlined in “General: Safety” above.
6. **Time Limits:** The competitor will have 1 Minute to set-up, break, and clean up the area for EACH STATION. Timing is continuous and specific to each station- time starts when competitor begins set-up and time stops when the ring is cleared as determined by the ring coordinator. The time will then reset for the next competitor. A deduction of .5 point will be assessed for every 15 seconds over the 1 minute time limit per station, starting at 1 minute 1 second. This is different than with the other events so please take notice.
7. **Competition Process:** Once the competition order is established and the competition begins the first competitor will setup their first station, immediately execute the break and clear the area, all while time is running. Time will be reset and the second competitor will be called up, setup their first station, immediately execute the break and clear the area. Once all competitors have completed their first station, the first competitor will set up his/her second station in the same manner. This will be followed by the second competitor and so on. This process will continue until all competitors have exhausted their 6 board allotment or each competitor has completed 3 stations, whichever comes first.
 - a. **Each competitor will have a maximum of 2 attempts per station.** If the board/boards are not broken after the 2nd attempt the station will be considered unsuccessful and no points will be earned for that station.
8. **Judging:** Competitor will be judged on technical difficulty, creativity, and completion of breaks as outlined on the Extreme Kicks Chart for technical values.
 - a. If a competitor fails to break **ALL** boards attempted during a station, then that break will be considered unsuccessful and no points will be awarded for that station.
 - b. A competitor is allowed 2 attempts per station as outlined above. A break will be deemed successful and awarded points provided all boards attempted are broken within the 2 attempts.
 - c. Each station will earn the competitor 1-10 points from the Extreme Kicks Chart. The competitor with the highest total point value at the end of the competition will win.
 - d. If a competitor executes a break that is not listed on the Extreme Kicks Chart a point value will be awarded at the judge’s discretion based on consideration of the other breaks listed on the Extreme Kicks Chart and the similarity of the break in question. If a competitor executes a break not listed and is determined to be below the skill level of the minimum breaks listed, that break will be considered unsuccessful and no points will be awarded.
9. **Ties:** In the event of a tie, the winner will be decided by the exclusion of low and/or high scores, a 1-station break-off, or a show of hands—at the Judges’ discretion.

8. **Ties:** In the event of a tie, the winner will be decided by the highest percentage broken. Example: Competitor "A" breaks 10 out of 10; competitor "B" breaks 10 out of 12. Competitor "A" broke at 100%; competitor "B" broke at 83%. Competitor "A" is the winner. If more than one competitor has the same percentage broken after their initial break, there will be a break off to determine the winner. If there is a tie created by more than one competitor breaking 100% of their stack (example: 2 competitors break 10 out of 10), the competitor that broke the amount first is the winner.

A deduction of ½ block will be taken off the competitor's total break for every 15 seconds over the allotted time. Deductions will begin after the 6-minute mark.
7. **Judging:** Judges will count the number of blocks broken to determine the winner. The competitor who breaks the most (or, in the event of a tie, has the highest percentage broken) is the winner.
8. **Ties:** In the event of a tie, the winner will be decided by the highest percentage broken. Example: Competitor "A" breaks 10 out of 10; competitor "B" breaks 10 out of 12. The depth can be no more than 20" from the side where the competitor will be standing to the back of the station).** The competitor may utilize each station as many times as needed, as long as he/she stays within the time limits. There can be no more than 5 stations at any given time during the execution of the break as determined by the ring coordinator. Questions should be addressed before beginning execution. If the ring coordinator determines that there were in fact more than 5 stations at any given time the total amount of boards included in the additional stations will be deducted from the final count of boards broken. The assistants can be used to replenish stations. Competitors will be required to ensure the safety of fellow competitors and spectators as outlined in "General: Safety" above.
5. **All boards must be broken on their station.** If a board falls off of a station or out of a holders hands the board must be set back up on the station or back in the holders hands before being broken. If the board is broken in any other position it will not count toward the final count.

Competitor "A" broke at 100%; competitor "B" broke at 88%. Competitor "A" is the winner. If more than one competitor has the same percentage broken after their initial break, there will be a break off to determine the winner. If there is a tie created by more than one competitor breaking 100% of their boards (example: 2 competitors break 20 out of 20), the competitor that broke the amount first is the winner.

Competitor "A" broke at 100%; competitor "B" broke at 83%. Competitor "A" is the winner. If more than one competitor has the same percentage broken after their initial break, there will be a break off to determine the winner. If there is a tie created by more than one competitor breaking 100% of their stack (example: 2 competitors break 10 out of 10), the competitor that broke the amount first is the winner.

9. **Judging:** Judges will count the number of boards broken to determine the winner. The competitor who breaks the most boards in either round is the winner. Some examples:
 - a. Competitor A breaks 8 of 8 in the first round. Competitor B breaks 8 of 8 in the second round. Competitor A wins because you cannot intentionally tie the first round. (Assuming 8 is the largest amount broken)
 - b. Competitor A breaks 8 of 10 in the first round. Competitor B also breaks 8 of 10 in the first round. This is an unintentional tie. The winner of the second round will determine the winner. (Assuming 8 is the largest amount broken) The judge should prevent a tie in the second round by disallowing competitors that are tied to put up the same amount of boards.
 - c. Competitor A breaks 8 of 10 in the first round. Competitor B breaks 8 of 8 in the second round. Competitor B wins by percentage. (Assuming 8 was the largest amount broken)
 - d. Competitor A breaks 8 of 10 in the first round and 6 of 6 in the second round. Competitor B breaks 6 of 7 in the first round and 8 of 10 in the second round. Competitor A wins by percentage, 87% compared to Competitor B at 82%.
 - e. Competitor A breaks 8 of 10 in the first round and 6 of 6 in the second round. Competitor B breaks 6 of 6 in the first round and 8 of 10 in the second round, creating an unintentional tie. Competitors must break a third time to determine the winner. The judge should prevent a tie in the tie breaker round by disallowing competitors to put up the same amount of boards.
10. **Ties:** In the event of a tie, the winner will be decided by the highest percentage broken. Both rounds will be considered in deciding a tie. The original order will be maintained during tie breakers. See "**Judging**" above for more detail.
